Professor Phineas T. Pennypickle's Newsletter

Fall 2008

Discover science through play at the Temecula Children's Museum!

I am excited that you are starting a new school year. Be sure to join me at the Imagination Workshop to discover fun and engaging science adventures as you wander through my wacky house... you can see everything I have planned for you when you visit my website at www.pennypickles.org!

P.T.P.

Chocolate, bugs, and reptiles...

but not together, of course... although chocolate covered insects are tastier than you might think. Tickets for these outrageously fun evenings are \$5 per person, and you can pre-register at www.pennypickles.org or by calling 951-308-6376.

Food Science—Chocolate: Friday, September 12, 5:30-7:30 p.m.

My dear friend and sidekick Beaker talked me into this study... he wants you to learn about the process of making chocolate (but most of all, he wants you to eat it!!) So bring your sweet tooth tonight. (You'd better make reservations early for this one.)

Studying Bugs & Reptiles: Friday, September 19, 5:30-7:30 p.m.

Truthfully, I am so fascinated by bugs AND reptiles that I can't choose between them - so you get to learn about both. Be prepared for a really interesting night with maybe some live critters... don't forget to get your tickets early.

The Professor's
Used Book Sale
Saturday, September 6
10 am - 5 pm

I ♥ books...

but my library is
too full.

Visit Pennypickles gift shop early to take advantage of some great buys and receive a **free gift with your purchase of \$20 or more.** (Saturday only)

October is Museum Gone Mad month!

Science and scariness go hand in hand in October at my workshop—you won't want to miss any of the fun. See more information when you visit my website at www.pennypickles.org.

Mad Scientist Day: Sunday, October 19, 10 a.m. to 5 p.m.

We'll kick off National Chemistry Week and explore some mad science on this day! Don't forget to wear your lab coat and goggles, ha ha.

Science of Animatronics Show: Last 2 Fri. & Sat. in October, 4 p.m.

This year's Haunted Museum will feature animatronics... don't you want to know how they work? You'll find out during this one-of-a-kind adventure. **AND...** don't miss our **Family Night at the Haunted Museum** tours on Wed. Oct. 22 and 29, between 7-9 p.m. It's our really scary regular Haunted Museum toned down PG style so you get all the fun without the nightmares!

Professor Phineas T. Pennypickle 

Haunted Museum

This is the one time during the year that my workshop is NOT exactly the best place for kids!

The Haunted Museum tour is very scary and is meant for teens and adults. This year we are offering a family-friendly version on October 22 and 29 so that younger children can have their own "frightening" experience.

The regular Haunted Museum tours will be held Oct. 23-25 and Oct. 30-Nov. 1 from 7-10 p.m.

You can see more information or pre-register at www.pennypickles.org or call 951-308-6376.

Be sure to visit my Workshop soon - I'll see you there!
